Activity Risk Assessment

Stings and cuts	Personal injury	Staff and participants	Staff to ensure that all participants are wearing robust footwear and arms legs are covered in periods of weather conditions where jelly fish may be encountered.
Rip tides / wave action	Personal injury, drowning	Staff and participants	Staff trained in rip observation, methods of avoidance and management. Staff to remain updated with regular rips in the area. Clear area to be marked (markers on beach and/or landmark transits) and participants briefed to be observant and stay in area. Participants must not go 'out of their depth', this must be constantly supervised by the instructor and reinforced. Maximum wave height is 4 foot.

Risk assessments are to be reviewed on an annual basis unless an incident occurs, which then dictates immediate review of the risk assessment.
